

Reservation\handleAddForm

CommonITILTask\prepareInput
ForAdd

CommonITILTask\prepareInput
ForUpdate

manageBeginAndEndPlanDates

```
graph LR; A[Reservation\handleAddForm] --> D[manageBeginAndEndPlanDates]; B[CommonITILTask\prepareInput ForAdd] --> D; C[CommonITILTask\prepareInput ForUpdate] --> D;
```

The diagram illustrates a flow where three different source functions or tasks converge on a single target function. The source functions are 'Reservation\handleAddForm', 'CommonITILTask\prepareInput ForAdd', and 'CommonITILTask\prepareInput ForUpdate'. Each source function is represented by a white rectangular box with a black border. The target function, 'manageBeginAndEndPlanDates', is represented by a gray rectangular box with a black border. Three blue arrows originate from the right side of each source box and point towards the left side of the target box, indicating a directed relationship or data flow.
