

canUpdateItem

```
graph LR; A[canUpdateItem] --> B[canUpdateBGEvents]
```

A diagram showing a relationship between two methods. On the left is a gray rectangular box containing the text 'canUpdateItem'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'canUpdateBGEvents'. Both boxes have a thin black border.

canUpdateBGEvents
