

Symfony\Component\Console
\Output\ConsoleOutput\
__construct

Symfony\Component\Console
\Output\ConsoleOutput\section

getFormatter

```
graph LR; A["Symfony\\Component\\Console\\Output\\ConsoleOutput\\__construct"] --> C[getFormatter]; B["Symfony\\Component\\Console\\Output\\ConsoleOutput\\section"] --> C;
```

The diagram illustrates a dependency or relationship between two methods and a common method. Two light gray rectangular boxes on the left contain the method names: 'Symfony\\Component\\Console\\Output\\ConsoleOutput__construct' and 'Symfony\\Component\\Console\\Output\\ConsoleOutput\\section'. Two blue arrows originate from the right side of these boxes and point towards a single dark gray rectangular box on the right, which contains the text 'getFormatter'.
