

FormRequest

```
classDiagram
    class FormRequest {
    }
    class StorePlaquelmmatriculationRequest {
        +authorize()
        +rules()
    }
    StorePlaquelmmatriculationRequest --|> FormRequest
```

The diagram illustrates a class hierarchy. At the top is the 'FormRequest' class, represented by a white box with a black border and two empty internal compartments. Below it is the 'StorePlaquelmmatriculationRequest' class, represented by a grey box with a black border. The 'StorePlaquelmmatriculationRequest' class has two public methods: 'authorize()' and 'rules()'. A blue arrow with an open triangular head points from the 'StorePlaquelmmatriculationRequest' class to the 'FormRequest' class, indicating that 'StorePlaquelmmatriculationRequest' inherits from 'FormRequest'.

StorePlaquelmmatriculation
Request

+ authorize()

+ rules()
