

Stat\displayLineGraphFromData

Stat\displayPieGraphFromData

getTitle

```
graph LR; A[Stat\displayLineGraphFromData] --> C[getTitle]; B[Stat\displayPieGraphFromData] --> C;
```

The diagram illustrates a dependency or relationship between two functions and a common target. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'Stat\displayLineGraphFromData' and the bottom box contains 'Stat\displayPieGraphFromData'. On the right, there is a smaller, gray rectangular box with a black border containing the text 'getTitle'. Two blue arrows originate from the right side of the top box and the right side of the bottom box, both pointing towards the 'getTitle' box. The arrows are positioned such that they appear to converge on the left side of the 'getTitle' box.
