

Laminas\Mail\Header  
\ContentDisposition  
\fromString

Laminas\Mail\Header  
\ContentType\fromString

parse

```
graph LR; A["Laminas\Mail\Header<br>\ContentDisposition<br>\fromString"] --> C[parse]; B["Laminas\Mail\Header<br>\ContentType\fromString"] --> C;
```

The diagram illustrates two method calls from the Laminas\Mail\Header namespace pointing to a common 'parse' method. The top call is for '\ContentDisposition\fromString' and the bottom call is for '\ContentType\fromString'. Both are represented by blue arrows pointing to a grey box labeled 'parse'.
