

getName

```
graph LR; A[getName] --> B[Sabre\Uri\split]
```

A diagram showing a mapping from the text 'getName' to 'Sabre\Uri\split'. The text 'getName' is inside a gray rectangular box with a black border. A blue arrow points from the right side of this box to the left side of another rectangular box. This second box is white with a black border and contains the text 'Sabre\Uri\split'.

Sabre\Uri\split
