

fetchOne

```
graph LR; A[fetchOne] --> B["League\Csv\InvalidArgument<br>\dueToInvalidRecordOffset"]
```

A diagram illustrating a function call and an exception. On the left, a gray rectangular box contains the text 'fetchOne'. A blue arrow points from this box to a larger white rectangular box on the right. The white box has a black border and contains the text 'League\Csv\InvalidArgument' on the top line and '\dueToInvalidRecordOffset' on the bottom line.

League\Csv\InvalidArgument  
\dueToInvalidRecordOffset
