

GuzzleHttp\Psr7\Utils
\modifyRequest

GuzzleHttp\Psr7\Message
\toString

getHeaders

```
graph LR; A[GuzzleHttp\Psr7\Utils<br/>\modifyRequest] --> C[getHeaders]; B[GuzzleHttp\Psr7\Message<br/>\toString] --> C;
```

The diagram illustrates a dependency or relationship between two functions and a common target. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'GuzzleHttp\Psr7\Utils' followed by '\modifyRequest' on a new line. The bottom box contains 'GuzzleHttp\Psr7\Message' followed by '\toString' on a new line. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the top of a gray rectangular box on the right, and the arrow from the bottom box points to the bottom of the same gray box. The gray box contains the text 'getHeaders'.
