

canViewItem

```
graph LR; A[canViewItem] --> B[isParentAlreadyLoaded]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text 'canViewItem'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'isParentAlreadyLoaded'. Both boxes have a thin black border.

isParentAlreadyLoaded
