

getRequestWithOptions

```
graph LR; A[getRequestWithOptions] --> B[parseOptions]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box on the left is white with a black border and contains the text 'getRequestWithOptions'. A blue arrow points from the right side of this box to the left side of the second box. The second box on the right is gray with a black border and contains the text 'parseOptions'.
