

NetworkAlias\showForm

NetworkName\showForm

NetworkPort\showForm

displayRecursiveItems

```
graph LR; A[NetworkAlias\showForm] --> D[displayRecursiveItems]; B[NetworkName\showForm] --> D; C[NetworkPort\showForm] --> D;
```

The diagram illustrates a flow where three separate components on the left—NetworkAlias\showForm, NetworkName\showForm, and NetworkPort\showForm—each have a blue arrow pointing towards a single, larger gray box on the right labeled displayRecursiveItems. This suggests that these three components feed into or trigger the displayRecursiveItems function.
