

translateFirstOfType

```
graph LR; A[translateFirstOfType] --> B["Symfony\\Component\\CssSelector\\XPath\\XPathExpr\\addStarPrefix"]; A --> C["Symfony\\Component\\CssSelector\\XPath\\XPathExpr\\getElement"]
```

The diagram illustrates a call to the `translateFirstOfType` method. This method is shown in a grey box on the left. Two blue arrows originate from its right side, pointing to two separate white boxes on the right. The top box contains the path `Symfony\\Component\\CssSelector\\XPath\\XPathExpr\\addStarPrefix`, and the bottom box contains `Symfony\\Component\\CssSelector\\XPath\\XPathExpr\\getElement`.

Symfony\\Component\\CssSelector
XPath\\XPathExpr\\addStarPrefix

Symfony\\Component\\CssSelector
XPath\\XPathExpr\\getElement
