

sipRound

```
graph LR; A[sipRound] --> B[rotl_64]
```

A diagram showing a call from the function `sipRound` to the function `rotl_64`. The `sipRound` node is a gray rectangle on the left, and the `rotl_64` node is a white rectangle on the right. A blue arrow points from the right side of the `sipRound` node to the left side of the `rotl_64` node.
