

Glpi\Api\APIRest\call

Glpi\Api\APIXmlrpc\call

getRessourcesWithSession  
Write

```
graph LR; A[Glpi\Api\APIRest\call] --> C[getRessourcesWithSession<br/>Write]; B[Glpi\Api\APIXmlrpc\call] --> C;
```

The diagram illustrates a mapping from two different API call methods to a single internal function. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'Glpi\Api\APIRest\call' and the bottom box contains 'Glpi\Api\APIXmlrpc\call'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box contains the text 'getRessourcesWithSession' on the top line and 'Write' on the bottom line. The gray box has a black border and a solid gray fill.
