

JsonSerializable

```
classDiagram
    class JsonSerializable {
    }
    class JsonSerializable
    class JsonSerializable
    class JsonSerializable
```

The diagram shows a class named 'JsonSerializable' represented by a gray rectangle divided into three horizontal sections. The top section contains the text 'JsonSerializable'. To the right of the rectangle, there are three blue curved arrows, each originating from the right side of one of the three sections and pointing back to the right side of the top section. This represents a self-referencing relationship or a recursive structure.
