

Symfony\Component\Console
\Question\ChoiceQuestion
 __construct

Symfony\Component\Console
\Question\ChoiceQuestion
 setErrorMessage

Symfony\Component\Console
\Question\ChoiceQuestion
 setMultiselect

setValidator

```
graph LR; A["Symfony\\Component\\Console\\Question\\ChoiceQuestion<br/>__construct"] --> D["setValidator"]; B["Symfony\\Component\\Console\\Question\\ChoiceQuestion<br/>setErrorMessage"] --> D; C["Symfony\\Component\\Console\\Question\\ChoiceQuestion<br/>setMultiselect"] --> D;
```

The diagram illustrates the relationships between three methods of the `ChoiceQuestion` class and the `setValidator` method. Three light blue boxes on the left contain the class and method names: `__construct`, `setErrorMessage`, and `setMultiselect`. Three blue arrows originate from the right side of these boxes and point to a single grey box on the right labeled `setValidator`.
