

NodeOutputInterface

```
classDiagram
    class NodeOutputInterface {
    }
    class NodeOutputInterface {
    }
    class NodeOutputInterface {
    }
```

The image shows a UML class diagram for the NodeOutputInterface. It consists of a rectangular box divided into three horizontal compartments. The top compartment contains the text 'NodeOutputInterface'. The middle and bottom compartments are empty, representing the class's attributes and methods respectively.
