

display

```
graph LR; A[display] --> B["Gipi\Debug\Profiler\getInstance"]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the word "display". A blue arrow points from this box to a larger white rectangular box on the right. The white box contains the text "Gipi\Debug\Profiler" on the top line and "\getInstance" on the bottom line. Both boxes have a thin black border.

Gipi\Debug\Profiler
\getInstance
