

Symfony\Component\Console
\Style\SymfonyStyle\section

Symfony\Component\Console
\Style\SymfonyStyle\title

getFormatter

```
graph LR; A["Symfony\\Component\\Console\\Style\\SymfonyStyle\\section"] --> D["getFormatter"]; B["Symfony\\Component\\Console\\Style\\SymfonyStyle\\title"] --> D;
```

The diagram illustrates a relationship between two class paths and a common method. Two white rectangular boxes on the left contain the class paths: 'Symfony\\Component\\Console\\Style\\SymfonyStyle\\section' and 'Symfony\\Component\\Console\\Style\\SymfonyStyle\\title'. Two blue arrows originate from the right side of these boxes and point towards a gray rectangular box on the right labeled 'getFormatter'.
