

getNonce

```
graph LR; A[ParagonIE_Sodium_Core_Util\strlen] --> B[getNonce]
```

The diagram illustrates a function call. A light gray rectangular box on the left contains the text 'getNonce'. A blue arrow points from this box to a larger white rectangular box on the right. The white box has a black border and contains the text 'ParagonIE\_Sodium\_Core\_Util\strlen'.

ParagonIE\_Sodium\_Core  
\_Util\strlen
