

Brick\Math\BigRational  
\toBigDecimal

Brick\Math\BigRational  
\toScale

toBigDecimal

```
graph LR; A["Brick\Math\BigRational<br>\toBigDecimal"] --> C[toBigDecimal]; B["Brick\Math\BigRational<br>\toScale"] --> C;
```

The diagram illustrates a mapping from two source methods to a single target method. On the left, there are two white rectangular boxes. The top box contains the text 'Brick\Math\BigRational' followed by '\toBigDecimal' on a new line. The bottom box contains 'Brick\Math\BigRational' followed by '\toScale' on a new line. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the left side of a gray rectangular box on the right. The arrow from the bottom box also points to the left side of the same gray box. The gray box contains the text 'toBigDecimal'.
