

FormRequest

```
classDiagram
    class FormRequest {
    }
    class UpdateEleveRequest {
        +authorize()
        +rules()
    }
    UpdateEleveRequest --|> FormRequest
```

The diagram shows two class boxes. The top box is labeled 'FormRequest' and has two empty compartments below the name. The bottom box is labeled 'UpdateEleveRequest' and has two compartments below the name, containing the methods '+ authorize()' and '+ rules()'. A blue arrow with an open triangle head points from the bottom box to the top box, indicating that 'UpdateEleveRequest' inherits from 'FormRequest'.

UpdateEleveRequest

+ authorize()

+ rules()
