

prepareInputForUpdate

```
graph LR; A[prepareInputForUpdate] --> B[Toolbox\constructMailServer Config]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box on the left is gray and contains the text 'prepareInputForUpdate'. A blue arrow points from the right side of this box to the left side of the second box. The second box on the right is white with a black border and contains the text 'Toolbox\constructMailServer Config'.
